By Erika Okumura How to play Lineage 2 Revolution for Android on PC The release of on an international level was an event that fans of Asian MMORPGs had been waiting for, being able to finally play one of the most complete (and challenging) games of the genre adapted for touchscreen devices.. Nox Player App is an android emulator which emulates the android system on the Windows or Mac OS X computer.. When you run any app, you can create customized controls in a simple and intuitive way.. Once you do this, you can drag content like photos or APKs directly to the emulator's window.. This means passing a photo from the computer to the emulator (or vice versa) is as simple as dragging and dropping a file.
